

SECURITY on Demand

PREMIUM CARGO

by Hammer

getting ahead by security

SECURITY ²⁴ ⁷

In dynamic markets with cost and time-driven competition a plus of flexibility, quickness and reliability gains the necessary lead. In particular for high-quality and security-sensitive goods tailor-made logistics solutions are decisive for success, in order to prevent damage, theft or loss. Therefore, maximum security along the total supply chain has priority.

As different the products are, as different are their security requirements. Storage, tailor made solution and transport must be individually adjusted. By exactly adjustable security standards the modular logistics solution **Premium Cargo** by Hammer guarantees optimal protection in each phase.

Security à la carte

TAPA and TÜV-certified terrain and warehouse, monitoring, GPS-controlled transport monitoring, own ultramodern fleet of trucks, especially secured hard sided vehicles, selected drivers and a special car park concept are our superior basic performances. Additional modules suitable for individual needs, e.g. second driver, live-monitoring, detailed route planning, employment of external security services, GPS-equipped trailers or escort by an accredited security service offer you callable surplus values in accordance with the specific requirement.

Success through expert's advice

Your personal key-account-manager gives you advice and cares for you, phase-overlapping, 24 hours on 7 days in the week. Our many years of experience in transport logistics for much-demanded and sensitive products are the quality label for your success, of which many references are available.

protection of your products

Manufacturers and traders of security-critical goods from areas as, for example, electronics, communication, pharmacy, fashion, luxury food and tobacco, etc. have to take up always new challenges for the protection of their goods and market images at storage, transport and delivery.

Premium Cargo by Hammer is the innovative supply-chain-management-solution with a sophisticated, internationally workable and flexible security concept.

Security can be planned

Our effective prevention starts with comprehensive customer and project-individual consultation on packaging, security and transport optimisation. On this basis our specialists work out integrated concepts and plans for you – compatible with all common process and merchandise information systems. From the four-step security program of **Premium Cargo** by Hammer you will get a solution package tailored to suit the needs of the market and overall handling from one hand. This applies to one single small part as well as to full truck loads. Direct delivery through our certified personnel at freely selectable collection and delivery times exclude transshipment involving security risks, no use of additional hubs or waiting times.

On request you can at any time get an insight into the process status, by the information flow with pre-alerts and reporting automatically generated by GPS and monitoring.

confidentiality + reliability

BENEFIT THROUGH EXCELLENCE IN SECURITY

Trust must be earned. Our logistics competence grown in many years – in particular also for products very much endangered of theft – guarantees you solid experience and proven equipment.

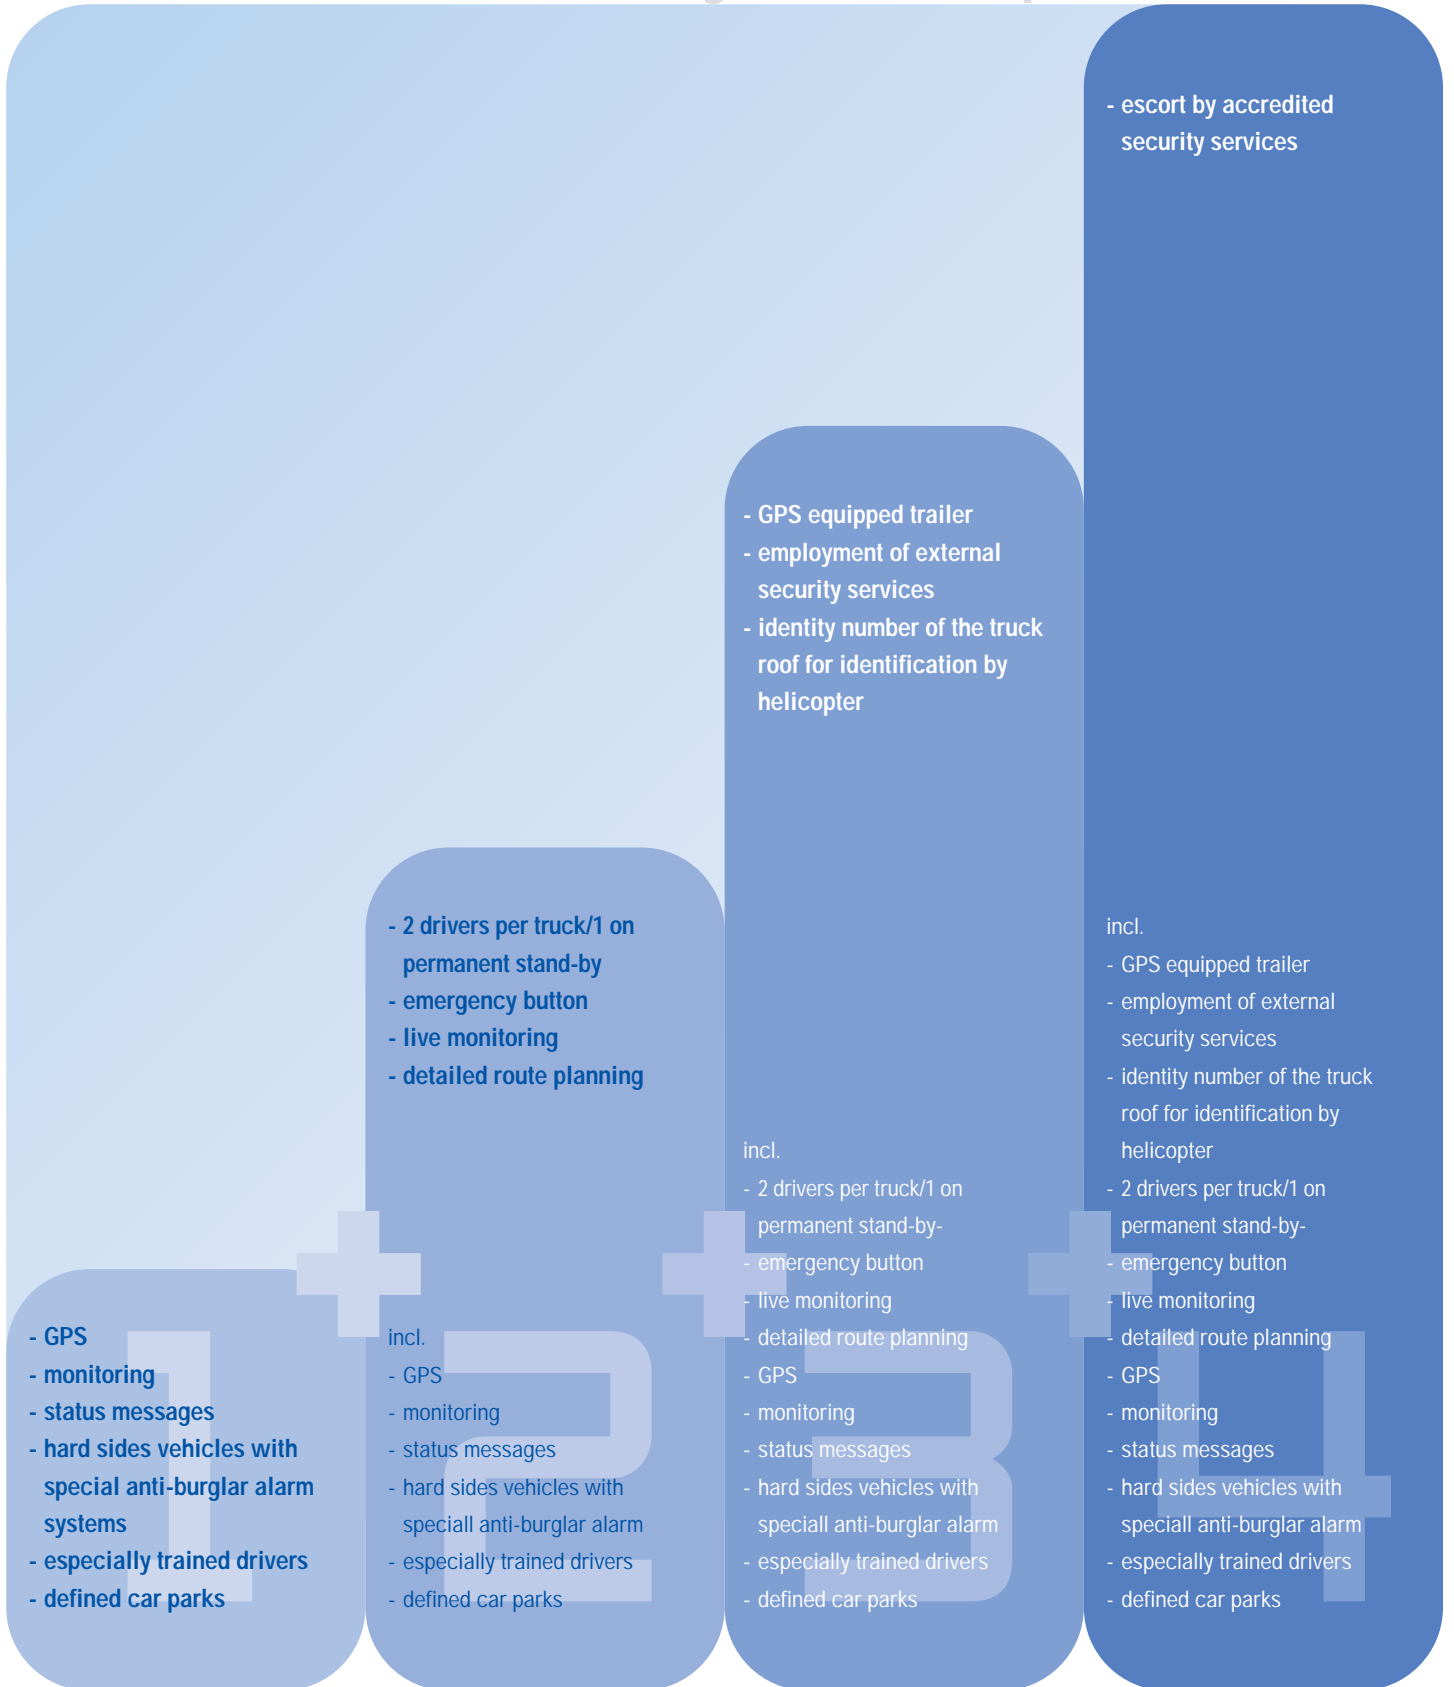

The exclusive care through your personal consultant guarantees highest confidentiality and knowledge of individual specifications.

Our complete handling – planning, implementation, fleet of trucks, IT-network – from one hand secures this basis of trust. The personal responsibility for our performance as an owner-managed mid-sized company gives you the certainty of a customer-oriented quality policy lived with lasting effect. For that **Premium Cargo** by Hammer is the clear evidence. Transparency of the service, certified, reliable security and flexibility in the selection of security standards do not leave anything to be desired.

Your advantage is measurable: tailor-made security logistics solution minimizes cost-efficient losses owing to theft or damage. Security on demand with **Premium Cargo** by Hammer that way quantifiably secures your turnover and profit.
